

The National Institutes of Health Clinical Center  
introduces a new wayfinding app:

# NIHCC TakeMeThere

Use the **Directory** for locations like clinics, departments, and points of interest.

**Navigation** is driven by user position and provides turn-by-turn directions.

Search for **Clinics** location, hours of operation, and contact information.

To download the NIHCC app for free, go to the Apple Store or Google Play and search "NIHCC Take Me There".

For more information, contact Eric Cole at [eric.cole@nih.gov](mailto:eric.cole@nih.gov).
